

## **Live Room**

Providing a large space for rehearsal, video shoot, showcase, CD Release Parties, and home to the Charlottesville Rock Academy, the Live Room is equipped with professional stage, backline, PA and lighting systems. This is a perfect space for pre-production work to fine tune recording arrangements or to perfect a live show. In addition, The Sound provides all levels of service for the Live Room, including fully catered events and full time sound engineers and technicians, to just turning on the PA for a comfortable, acoustically outstanding, creative atmosphere for your next project.

**Equipment:** The PA – A dual subwoofer, dual top room featuring single 18” wide throw subs, EAW single 15” 3 way tops, DBX Driverack management and equalization and a great sounding Studio Master console make the perfect system for The Live Room.

The stage is powered by 4 Yamaha 15” wedges, independent monitor mixer, and features a large comfortable layout capable of accommodating large acts.
